

Nordion Inc. Event Reporting

For the Quarter (July – September 2014)

Event Number	Event	Status/Outcome
14-12	Customer returned radioactive transport package without proper labeling and documentation.	Notifications with customer and freight forwarder have taken place. No further corrective action is required by Nordion.
14-13	Nordion Failed to submit Export License Notifications to the Canadian Nuclear Safety Commission (CNSC) Nuclear Proliferation and Export Control Division (NPECD).	Improvements have been made to Nordion's processes and systems to perform and verify the required notifications to the CNSC for exports of sealed sources.
14-14	Nordion Failed to report import of Co-60 Sealed Sources to the CNSC Sealed Source Tracking System (SSTS).	The process is being reviewed to identify areas where detection and correction of errors and/or verifications are needed.
14-15	Incorrect radiation category stated on Nordion's shipping paperwork, however the transport package was labeled appropriately.	Operator error. Nordion personnel were retrained on company policies and procedures. No further corrective action is required.
14-17	Transfer date for Co-60 Sealed Sources reported incorrectly by Nordion.	Administrative error.
