

Nordion Inc. Event Reporting

For the Quarter (January – March 2014)

Event Number	Event	Outcome
14-01	Shipment was to be held at carrier site, however it was not and was delivered to customer early. Therefore dose exceeded the allowable activity on the site license.	Nordion has instituted a corrective action to evaluate and address the issue.
14-02	Post-Shipment Verification (PSV) notification for a shipment not submitted to the CNSC.	Instituted second verification check of the shipping data on the PSV notification.
14-03	Damage to Shipping Labels.	Feedback has been provided to the carrier.
14-04	Package containment was breached.	The primary containment system for a shipment from Nordion's supplier was breached. Secondary containment system remained intact. There was no leakage or contamination as a result of this issue. Currently being investigated by supplier.
