

The Canadian Nuclear Safety Commission (CNSC) regulates the use of nuclear energy and materials to protect the health, safety and security of Canadians and the environment, and to implement Canada's international commitments on the peaceful use of nuclear energy. On October 13, 2017 the CNSC reported on Nordion's 2016 compliance performance. Of the fourteen categories, Nordion was rated as fully satisfactory (FS) in the areas of environmental protection and security, meaning the Company's compliance exceeded the CNSC's requirements and expectations. Nordion was rated as satisfactory (SA) in the 12 remaining areas, meeting the CNSC's requirements and expectations. [Click here to view full report.](#)

Nordion's continued strong performance in CNSC compliance is a result of the Company's and its employees' commitment to operate in a safe, responsible manner that respects the environment and the health of our employees, our customers, and the communities in which we operate.
